

Process **rite**

Modern platform packed with intuitive process mining capabilities to uncover bottlenecks for true business transformation

Are you getting the instinct that something is hindering your business workflow performance?

Take out all those uncertainties & gain full transparency of what is exactly happening now!

Achieve a holistic picture of your operational process analysis with **ProcessRite!**

ProcessRite is a process mining tool that captures data from your system event logs to identify process inefficiencies, reworks, deviations, and bottlenecks in the current processes.

Proactively “**Monitor**→**Analyze**→**Optimize**” resulting in process efficiency according to the evolving market trends.

What are the added benefits?

- Easy to Use
- Desktop Version for the Extraction Tool kit
- Synthetic Data Options
- Cashflow Analysis.

Know the Inbuilt Features of ProcessRite

- Have both On-Premises & Cloud Options
- 360-Degree View of Process Analysis
- Rich Dashboards
- Continuous Monitoring of Processes
- Built-in Adaptor for EBS, Oracle Cloud

Purpose of ProcessRite?

It is mainly designed to drive more strategic process excellence by analyzing the areas of process improvements through event logs in your business management systems such as Oracle E-Business Suite (EBS), Oracle ERP Cloud, and Oracle JD Edwards.

ProcessRite is a process mining tool that captures data from your system event logs to identify process inefficiencies, reworks, deviations, and bottlenecks in the current processes.

Why Choose ProcessRite?

1. To identify the inefficiencies, bottlenecks, and deviations in the existing processes such as Procure-to-Pay (P2P), Order-to-Cash (O2C), Accounts Payable, Accounts Receivables, etc.
2. To redefine your business processes concerning ever changing market trends.
3. To have a preliminary analysis for the process redesign or process re-engineering.
4. To have a complete analysis of the existing processes before the start of Digital transformation

Discover the exact process KPIs for creating a significant impact on your remarkable business outcomes
